- **What's on exhibition:**

The Inje Naeseorak Art Museum, located in Inje-gun, which represents a clean area and loves culture, has organized an exhibition for cultural and artistic exchanges between the people of Inje and Naeseorak artists. This exhibition is a Korean & German Artists artist exchange exhibition held at the public Inje Naeseorak Museum of Art, which aims to organize an exhibition that brings together Naeseorak artists and German artists through new trends and creative sensibilities.

The exhibition will have a unique collaboration and harmony as thoughts on nature, people, or the world from different perspectives will appear in various expressive and formative languages, which are the essence of visual art, and unfold in the same space.

The exhibition aims to revitalize international cultural and artistic exchanges and promote mutual cultural understanding and friendship through Korea-Germany cultural exchange. This exhibition will serve as an opportunity for Korea & Germany to grow and develop further as a community partner in the art and culture of both countries.
